Samuel Natal

Singida, Tanzania
+255 767 952 016
contact@samuelnatal.com

Experienced software developer with 3+ years of experience. My expertise lies in crafting robust Android and web apps that meet desired program specifications and goals. Maintaining the applications' full stacks through design, coding, testing and deployment.

Work Experience

Self-experienced through individual projects.

Currently, my experience lies on building individual projects requested by customers while others are self initiated. Notable projects including:

- E-commerce web application for selling art online.
- Online seat booking for the movie theatre.
- Village community bank android mobile application.

My portfolios is on www.samuelnatal.com
